## Summary

Result oriented Business Data Analyst with over 5 years of experience in leveraging data analytics, statistical analysis, and business intelligence tools to drive data-informed decision-making. Proven track record in interpreting complex datasets, identifying trends, and delivering actionable insight to enhance business performance. Seeking to apply my expertise to improve business processes and support strategic initiatives.

## Skills

- Data Visualization • SQL • Java/Python • Tableau • Power BI • Data Wrangling • Statistical Analysis & Math • MongoDB • Excel(Advanced) • Data Cleaning & Preparation • Apache Spark • Snowflake • Microsoft Azure • Azure Data Factory
- ETL Testing • Data warehousing • Risk Management • Machine Learning • Google Big Query • Hadoop • CI/CD Tools

## Experience

### Tata Consultancy Services

#### Business Data Analyst

Nordea Bank - Stockholm

09/2021 - Present

- Conducted complex data analysis to identify trends in customer transactions and loan portfolios, resulting in 13% increase in revenue through targeted cross-selling initiatives.
- Developed dashboards using tools Tableau/Power BI to visualize loan performance metrics, enabling real-time monitoring and forecasting for risk management.
- Led data-driven projects to optimize fraud detection processes, achieving a 10% reduction in fraudulent activities by implementing machine learning models in python.
- Collaborated with cross-functional teams, providing insights that informed the bank's credit risk assessment process and improved loan approval accuracy by 6%.
- Facilitated agile methodology adoption across cross-functional teams, increasing sprint efficiency by 40% and reducing project delivery times by 25%, leading to a 15% boost in overall productivity.
- Automated monthly financial reports, reducing manual efforts by 7 hours and ensuring consistency across various business units.
- Improved data collection processes by implementing ETL(Extract, Transform, Load) solutions, streamlining data management for improved reporting accuracy.
- Managed stakeholder relationships facilitating productive discussions and achieving consensus on project scope, resulting in a 20% decrease in change requests during the implementation phase.

### Tata Consultancy Services

#### Data Analyst

Nordea Bank - India

08/2019 - 08/2021

- Analyzed large datasets to identify key business insights, contributing to a 15% increase in operational efficiency through data-driven process improvements.
- Collaborated with IT to integrate new data sources, enhancing data quality and availability for business intelligence tools, resulting in a 10% boost in analytical capabilities.
- Developed automated reporting solutions that reduced manual data processing time by 30%, enabling faster and more accurate business decision-making.
- Streamlined ETL processes, achieving a 20 % improvement in data accuracy and consistency, which supported critical business operations and compliance requirements.
- Utilized SQL and Python to automate routine data analysis tasks, reducing manual workload by 25% and allowing more focus on strategic initiatives.

## Education

### Oriental Institute Of Science and Technology

#### B-Tech in Information Technology

2015 - 2019

## Certification

#### Azure Fundamental (AZ-900)

Google Data Analytics Professional Certificate

#### PL-300 Microsoft Power BI Data Analyst

Azure Data Fundamental (DP- 900)
